ARRANGEMENT REGARDING INTERNATIONAL TRADE IN TEXTILES

Notification under Article 4.4

Agreement between Canada and Romania

Note by the Chairman

Attached hereto is a communication received from the Permanent Mission of Canada concerning the bilateral agreement concluded between Canada and Romania, covering certain textiles products.

ARRANGEMENT CONCERNANT LE COMMERCE INTERNATIONAL DES TEXTILES

Notification conformément à l'article 4.4

Accord entre le Canada et la Roumanie

Note du Président

La Mission permanente du Canada a fait parvenir au secrétariat la communication ci-jointe concernant l'accord bilatéral conclu entre le Canada et la Roumanie, qui porte sur certains produits textiles.
October 3, 1977

Dear Mr. Wurth,

Pursuant to the provisions of paragraph 4 of Article 4 of the Arrangement Regarding International Trade in Textiles, I am instructed to inform the Textiles Surveillance Body of a recent agreement concluded between my Government and the Government of Romania with respect to imports into Canada of worsted fabrics from Romania.

The aforementioned agreement provides that Romania will restrain its exports to Canada of worsted fabrics for a 3-year period beginning January 1, 1977. During the first year of the agreement, Romania will not ship more than 185,000 square yards to Canada. Import levels for the second and third years are to be established during subsequent consultations.

In order to avoid hardship to both Romanian exporters and Canadian importers, it was agreed to admit on an ex-quota basis all shipments effected before May 5, 1977, the date of the original request to Romania for a restraint agreement.

The agreement was concluded under the provisions of Articles 4 and 6 of the Multi-Fibre Arrangement in order to eliminate the real risk of market disruption which both Governments agreed existed and which is demonstrated by the following facts:

Mr. P. Wurth, Chairman,
Textiles Surveillance Body,
Centre William Rappard,
154 rue de Lausanne,
1211 Geneve.
(a) the apparent Canadian market for worsted fabrics decreased by 13% between 1973 and 1976;

(b) imports in 1976 increased 14% over 1975 and preliminary data indicate substantially increased import levels for 1977;

(c) the share of the apparent Canadian market held by imports increased from 31.5% in 1974 to 35.8% in 1976 while domestic shipments declined from 68.5% to 64.2% over the same period;

(d) Canadian worsted fabric producers are under severe price pressures from off-shore goods and profit margins have been eliminated; and

(e) employment in the worsted sector has declined by 8% since 1974 and domestic producers are faced with low order book positions and high inventory levels.

In the view of Canadian authorities the aforementioned agreement fully meets and exceeds the requirements of Article 4 and, while eliminating a real risk of market disruption, ensures the orderly development of trade in worsted fabrics.

I have attached herewith copies of the memorandum of understanding and the exchange of letters effecting this agreement.

Yours sincerely,

R. Harry Jay,
Ambassador and
Permanent Representative
