Committee on Sanitary and Phytosanitary Measures

Original: Spanish

NEW VERSION OF PHYTOSANITARY CERTIFICATE

Communication from Argentina

The following communication, received on 21 September 2012, is being circulated at the request of the delegation of <u>Argentina</u>.

I. INTRODUCTION

1. On 17 September 2012, the National Agriculture and Food Quality and Health Service (SENASA) introduced a new version of the phytosanitary certificate and phytosanitary certificate attachment for exports of plants, plant products and other regulated items.

II. SECURITY FEATURES

- 2. The new version of the phytosanitary certificate* has the following security features:
 - Duotone watermarked paper in two (2) colours (light and dark) for use exclusively by SENASA, with red fibres and a "sky light" type background which becomes visible when exposed to ultraviolet light;
 - SENASA holographic stamp in the top right-hand corner;
 - Electronically issued, with a Single Electronic Validation Code (CUVE) that can be entered into the SENASA website (http://www.senasa.gov.ar) to verify the validity of the document.

III. VALIDITY

3. The current phytosanitary certificate will remain in effect and be used in parallel with this new version for approximately two months, after which the new version will be implemented definitively. For further information, please contact relint@senasa.gov.ar.

*_ ~ . . .

^{*}In Spanish only.
