

Committee on Sanitary and Phytosanitary Measures

**SPS TECHNICAL ASSISTANCE AND TRAINING ACTIVITIES
1 SEPTEMBER 1994 TO 31 DECEMBER 2014**

NOTE BY THE SECRETARIAT¹

Revision

1. This document provides an update of all the SPS technical assistance (TA) and training activities undertaken by the Secretariat from 1 September 1994 to 31 December 2014. Detailed information is provided in the annexed table on the TA activities undertaken by the Secretariat for the last three years (2012-2014).²
2. The main objective of SPS technical assistance and training activities undertaken by the WTO Secretariat is to increase participants' awareness about Members' rights and obligations under the Agreement on the Application of Sanitary and Phytosanitary Measures (SPS Agreement) and its implications for national policymaking. The SPS technical assistance activities also provide an opportunity to inform participants on the discussions held and latest documents considered by the SPS Committee. In addition, participants are informed about upcoming SPS workshops and technical assistance initiatives available to their countries on SPS matters.
3. The programme and presentations are adapted to take into account specific needs identified by the countries, participants' knowledge of the SPS Agreement, the level of development of the countries, and any specific concerns relating to the implementation of the SPS Agreement in order to adequately respond to individual requests. SPS technical assistance and training activities typically include presentations on the basic provisions of the SPS Agreement, the transparency provisions, specific trade concerns raised at the SPS Committee, the WTO dispute settlement and SPS-related cases, and specific issues such as risk analysis, regionalization and equivalence.
4. Altogether, 318 SPS training activities have been undertaken by the WTO Secretariat from 1 September 1994 to 31 December 2014. In 2014, 30 SPS training activities were undertaken: three regional or sub-regional workshops, fourteen national seminars, twelve other activities (including one Special SPS workshop held back-to-back with the October SPS Committee meeting) and one Advanced SPS Course.³
5. The annexed table identifies, for the period 2012-2014, the type of activity; the region, venue and dates; participating countries; the language used; as well as whether representatives from the FAO/WHO Codex Alimentarius Commission (Codex), the World Organization for Animal Health (OIE), and the International Plant Protection Convention (IPPC) Secretariat participated in the activity.
6. A regional workshop refers to an activity organized by the WTO in which a region or sub-region was invited to participate. A national seminar refers to a WTO-organized activity undertaken at the national level only. The "other" category refers to all other SPS TA and training activities that do not fall under either of the first two categories. This includes other types of SPS-specific activities

¹ This document has been prepared under the Secretariat's own responsibility and is without prejudice to the positions of Members or to their rights or obligations under the WTO.

² Detailed information on TA activities from previous years is available from the Secretariat upon request. In addition, G/SPS/GEN/521/Rev.7 includes details of TA activities from 1994.

³ The Advanced SPS Course includes a follow-up activity which is held back-to-back with the June/July SPS Committee meeting of the following year.

organized by the WTO Secretariat as well as activities organized by Members or other bodies in which the WTO Secretariat participated. Other general WTO training courses, such as Trade Policy Courses, Regional Trade Policy Courses, Geneva Weeks and Introduction Courses for Least-developed Countries also include sessions on the SPS Agreement; however, they are not included in the list of TA activities covered by this document.

7. The information provided in the Annex below is organized on an annual basis and in alphabetical order based on the region where the activity was undertaken, with the more recent activities listed first.

8. SPS TA activities are organized in close collaboration with Members, the three international standard-setting organizations referenced in the SPS Agreement (Codex, IPPC and the OIE), as well as with regional organizations, when appropriate. Since 1994, the Codex has participated in 105 activities, while the IPPC Secretariat participated in 91 activities and the OIE in 104 activities.

9. To meet the demands for more advanced SPS TA and training activities, a three-week Advanced Course on the SPS Agreement has been offered each year since 2005.⁴ This Advanced SPS course provides in-depth and "hands-on" SPS training, where at the end of the course participants must elaborate an "action plan" to address identified SPS needs in their countries. The implementation of the action plans is monitored after the course, and participants are invited to return to Geneva about eight months after the end of the course to present the achievements reached through their action plans. The next Advanced SPS course is scheduled for October 2015, and it will be held in English.

10. In addition to the above-mentioned SPS technical assistance and training activities, the WTO offers an E-Learning course on the SPS Agreement. The course is offered each year in all three official languages of the WTO: English, French and Spanish.

11. Since 2010, Members have been informed at the beginning of each year of all SPS-related planned technical assistance activities and interested officials are invited to submit applications for specific events. In 2014, this was done via document G/SPS/GEN/997/Rev.4 and G/SPS/GEN/997/Rev.4/Add.1. The Codex, IPPC and OIE secretariats also drew attention to this information on SPS training activities in their respective meetings. Over 700 applications were received for the five SPS-related activities, other than national seminars and E-Learning, that were offered by the WTO Secretariat in 2014; 172 candidates were selected in total. For the regional workshops, preference was given to candidates that had successfully completed the WTO E-Learning course on the SPS Agreement at the time of their application, and its completion was a requirement for candidates for the Advanced SPS course. All applicants were requested to provide information that indicated how their professional responsibilities were related to the SPS Agreement, and the endorsement of Members' permanent representations to the WTO was sought before the final selection of participants. The Secretariat endeavoured to ensure that the selected participants represented a balance of officials with responsibilities in the food safety, animal health or plant protection area within their national administrations, as well as SPS enquiry points and national notification authorities; and other officials responsible for coordination of WTO trade issues and SPS matters within their governments.

12. The Secretariat considers that this more "demand-driven" approach, based on applications from interested officials, together with the pre-requisite of completion of the SPS E-Learning course, has resulted in a more homogeneous and higher level of background knowledge by participants, and permitted the delivery of more advanced and effective training activities since 2010. The Secretariat will organize its 2015 training activities in this manner, as indicated in document G/SPS/GEN/997/Rev.5.

13. Chart 1 below lists the breakdown of the type of activities undertaken in 2014 and Chart 2 shows the number of activities per year.

⁴ See Chart 7 for a breakdown of participants who have attended the Advanced SPS Course by region.

Chart 1 - SPS Technical Assistance Activities 2014

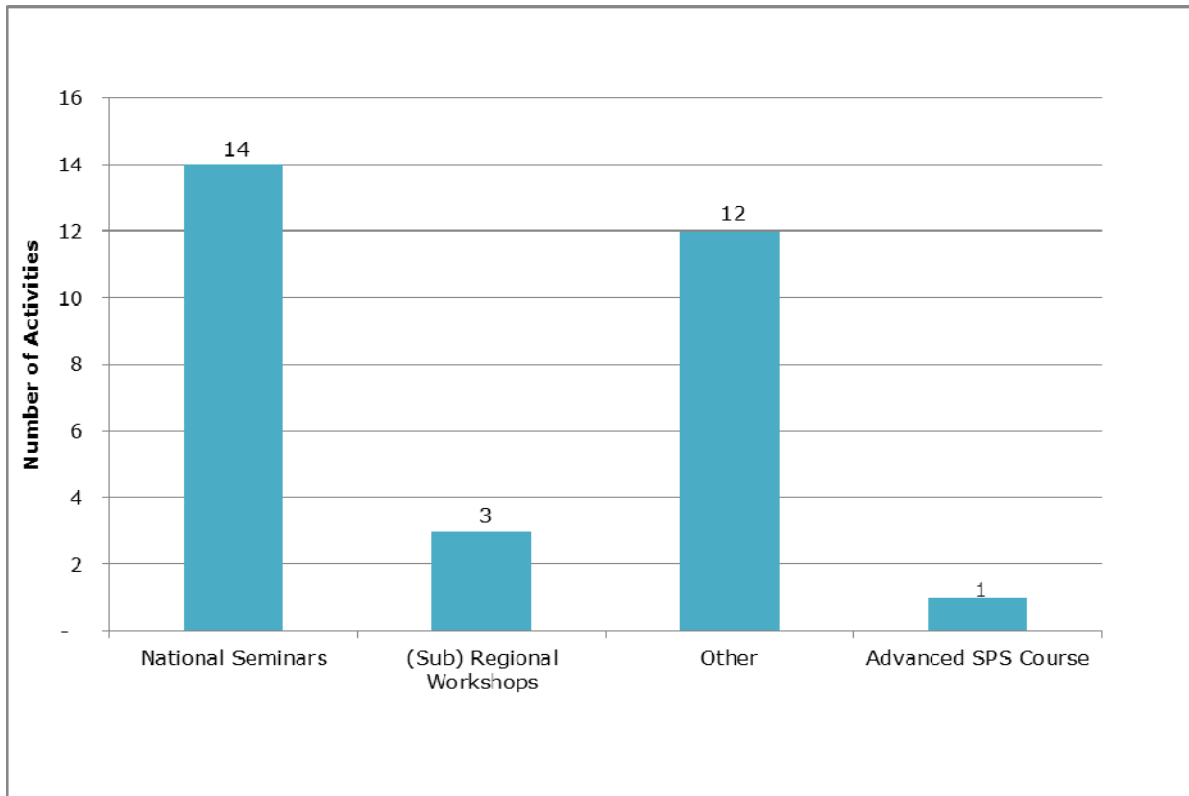

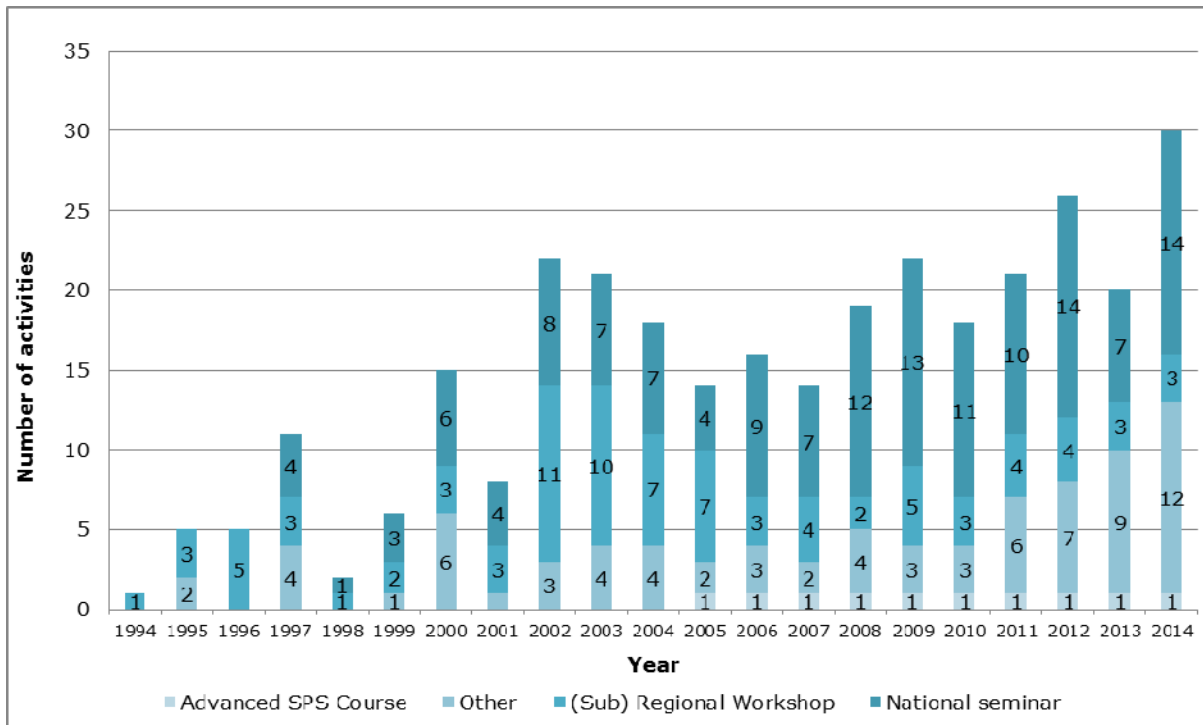

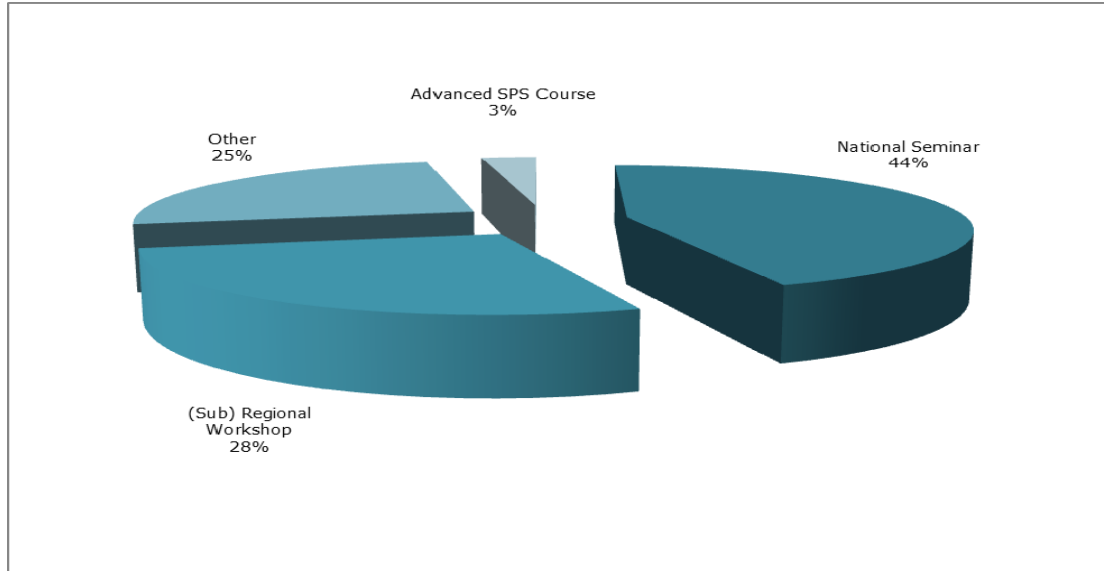

Chart 2 - SPS Technical Assistance Activities per year, 1994-2014

14. Chart 3 presents a breakdown of the type of activity undertaken since 1994: 141 national seminars, 87 regional or sub-regional workshops, 80 "other" activities and ten advanced courses on the SPS Agreement.

Chart 3 - Type of SPS Technical Assistance Activities, 1994-2014

15. Chart 4 shows the number and type of TA activities per region, while Chart 5 presents the total number of participants who have attended SPS TA and training activities per region and per type of activity. Overall, a total of 12,371 people have been given training by the WTO Secretariat on the SPS Agreement since 1994.

Chart 4 - SPS Technical Assistance Activities per Region, 1994-2014

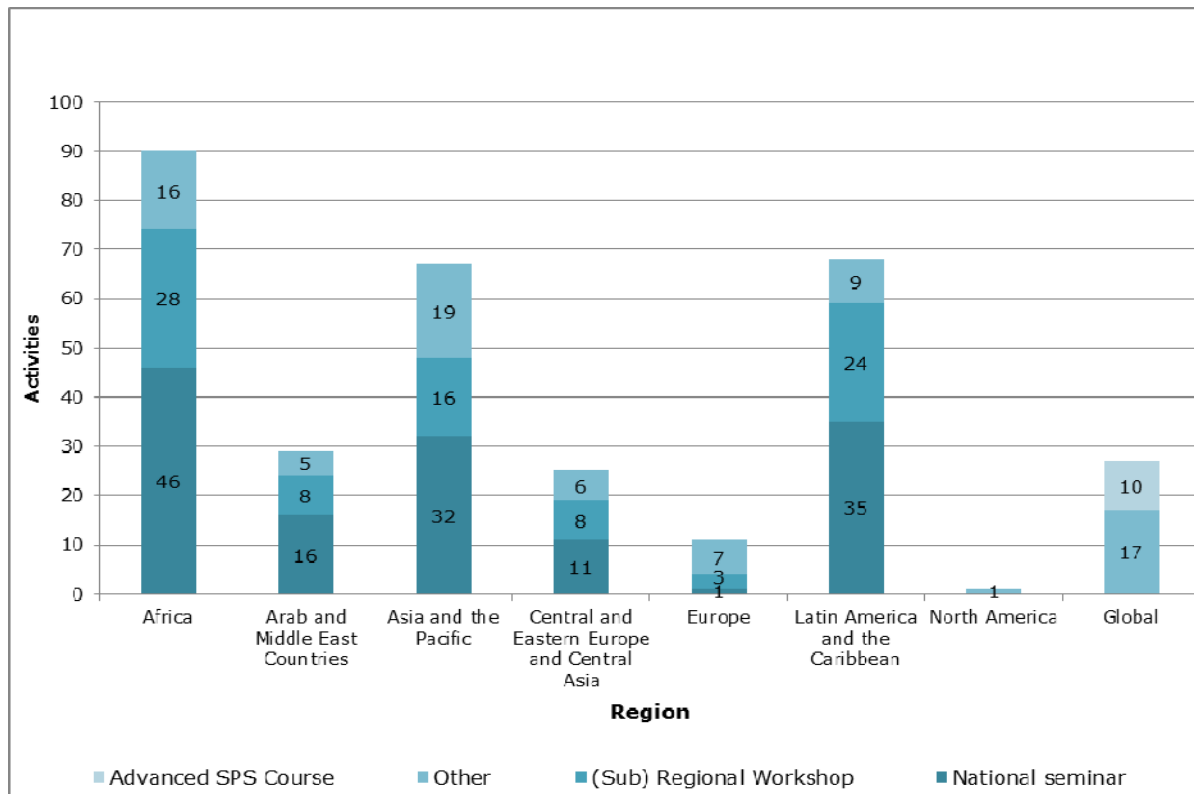

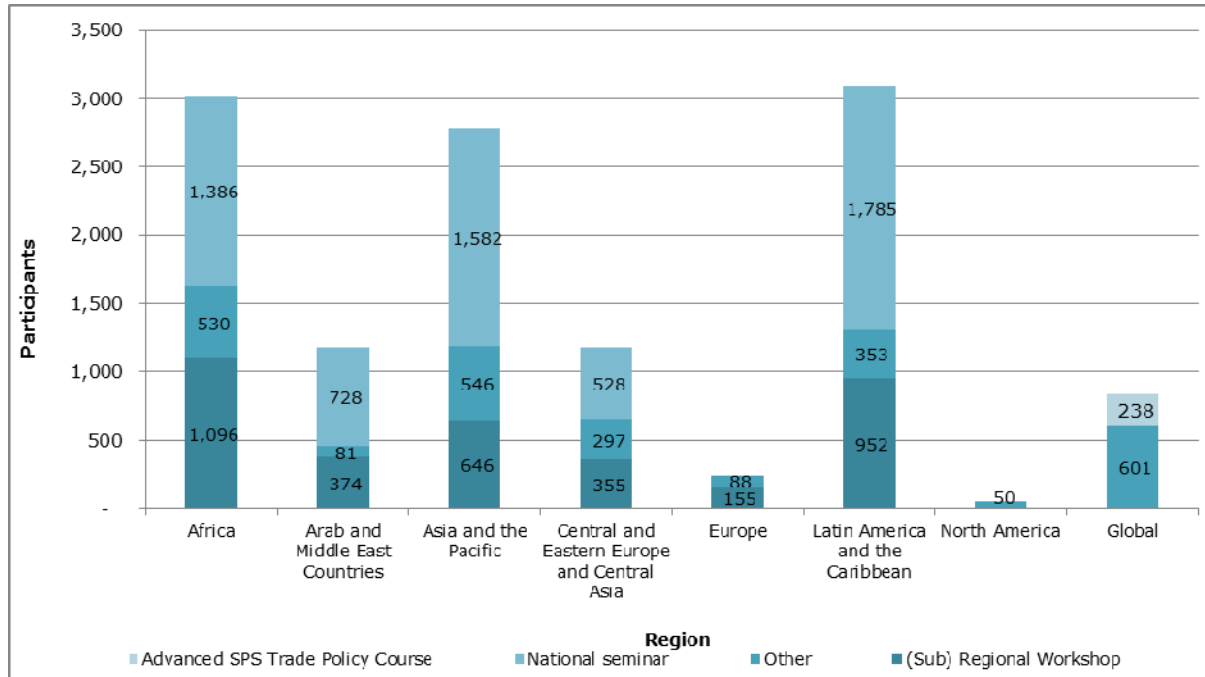

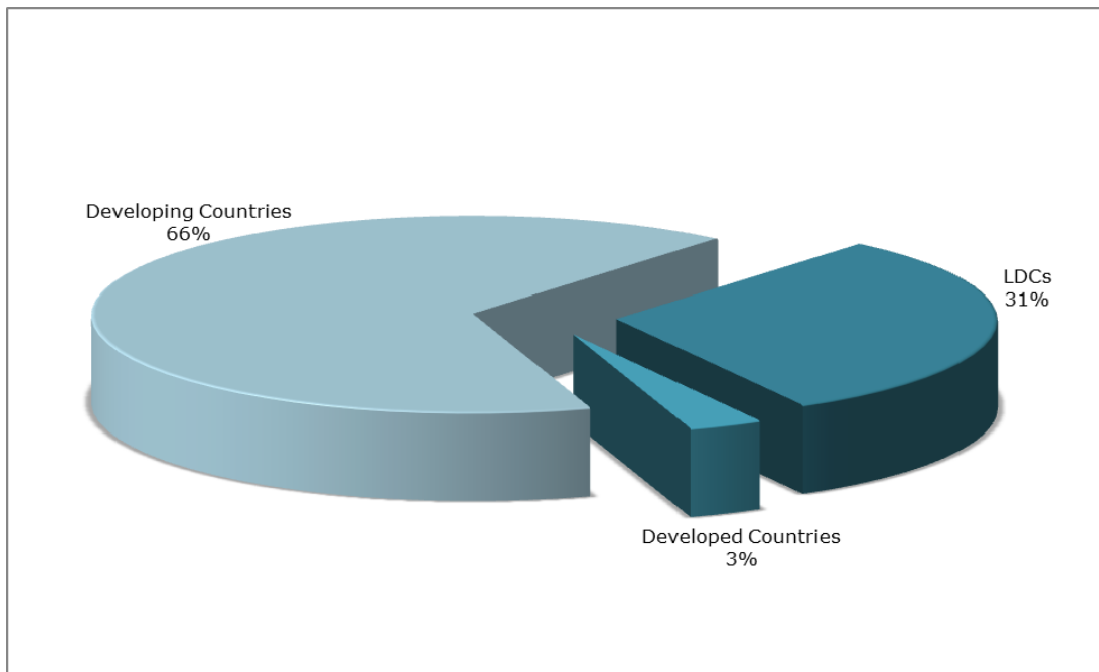

Chart 5 - Participants per Region, 1994-2014

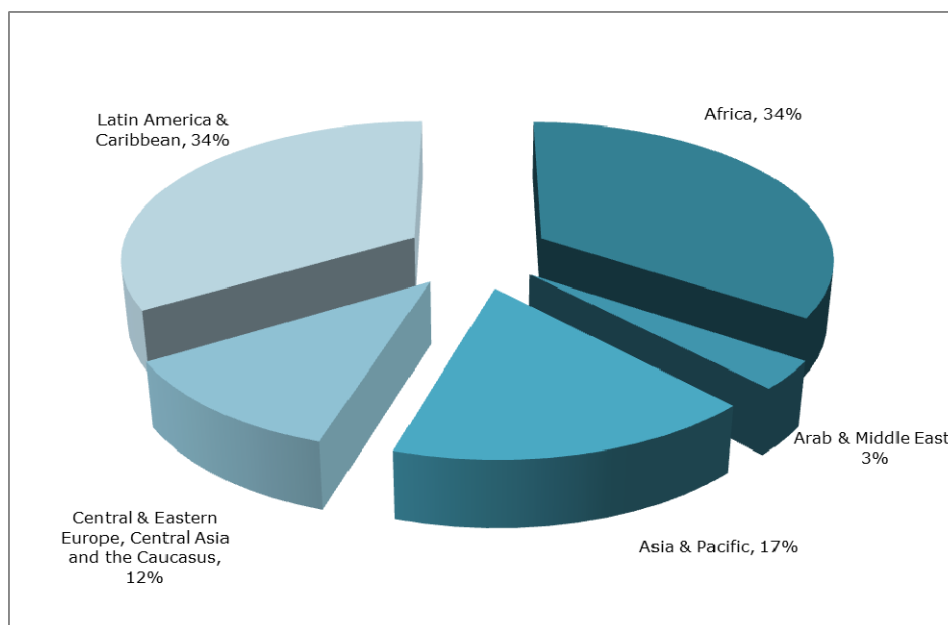

16. As shown in Chart 6, 31% of the beneficiaries of all SPS TA and training activities undertaken by the Secretariat have been from least-developed countries (LDCs), 66% from developing countries, and 3% from developed countries.

Chart 6 - Breakdown of country participation from 1994 to 2014

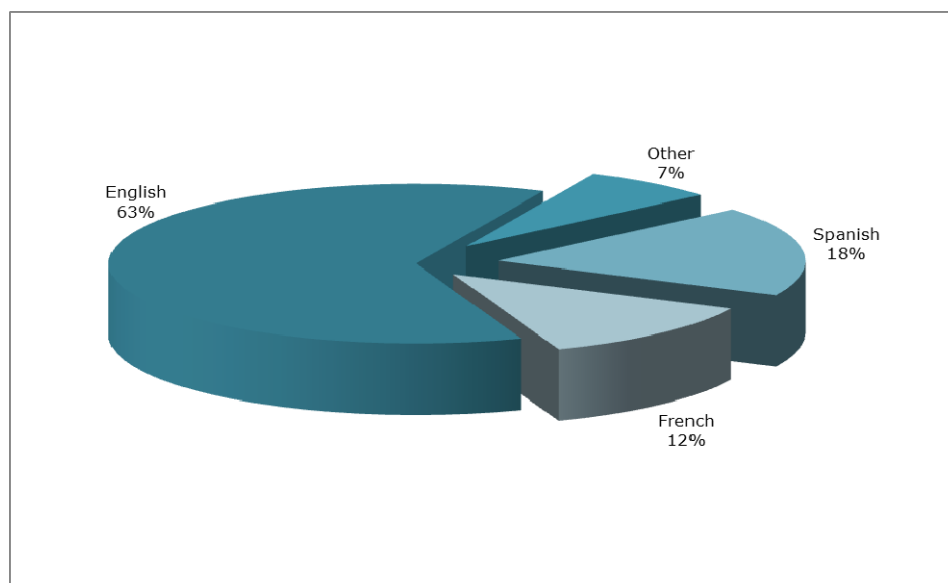

17. Chart 7 presents a breakdown by region of participants who have attended the Advanced SPS Course. Over the period 2005 to 2014, 238 officials have participated in the Advanced SPS Course from the following regions: 34% from Africa; 34% from Latin America and the Caribbean; 17% from Asia and Pacific; 12% from Central and Eastern Europe, Central Asia and the Caucasus; and 3% from Arab and Middle East countries.

Chart 7 – Breakdown of participants in the Advanced SPS Course by region from 2005 to 2014

18. Chart 8 presents the language breakdown of all SPS TA and training activities that have been undertaken. Overall, 63% of activities have been conducted in English, 18% in Spanish, and 12% in French. The remaining 7% have been undertaken in other languages, including Arabic, Portuguese, Turkish and Russian.⁵

Chart 8 - Language breakdown of SPS Technical Assistance activities - 1994-2014

⁵ For all the SPS TA and training activities undertaken in other languages, at least one of the official WTO languages was also used (with the exception of activities conducted in Portuguese).

ANNEX

**SPS TECHNICAL ASSISTANCE AND TRAINING ACTIVITIES
(1 JANUARY 2012 TO 31 DECEMBER 2014)**
