Committee on Technical Barriers to Trade

PUBLICITY ON ENQUIRY POINTS

Note by the Secretariat

1. At its meeting of 20-22 October 1981, the Committee requested the secretariat to propose, for its next meeting, a set of common elements that might be included in information booklets which Parties might wish to issue on enquiry points (TBT/M/8, paragraph 12). The purpose of this exercise is to improve publicity concerning the role of enquiry points in answering queries from parties (TBT/M/8, Annex, paragraph 11). It is suggested that it is important that all interested parties, in particular exporters, should know what services are being provided by enquiry points in other Parties.
2. Common elements and a standard layout for information booklets are presented in the Annex. The references to relevant provisions of the Agreement are intended to bring out the main requirements under which enquiry points operate.
3. It is suggested that the Committee should recommend that all booklets issued by Parties should contain the elements and, as far as possible, follow the layout at Annex.
